In 2012 the company sponsored an event at the Children's Museum of Pittsburgh to raise money for charity (The Water Project). This was called Roblox Builders Club: Hero of the Day which raised over \$1,000 for charity water.

On August 4th 2018, it was revealed that many well known ROBLOX users made fake accounts in order to copy their friends' progress. These fake accounts had the same username and picture as the original account owner but had no friends. Once these fake accounts gained a good amount of currency, they would join a game then buy the maximum amount of slots possible. The real account owner would notice that their account was missing and look at the fake profile's profile. While there were no friends, there were tons of transactions for items such as a \$100-\$150 purchase for 5000 robux. This could have been used to raise their reputation and potentially, make them more money.

On September 13, 2016, ROBLOX launched its tenth birthday party along with an event called BLOXtober. The purpose of this annual event is to celebrate ROBLOX's birthday and give players badges for completing The Admin's tasks every day until October 15th. The badge is called BLOXtagger and can be worn on your profile for the year. The tasks were also modified to let you earn the badges by simply logging in every day. If you do not already have a badge, then you will gain one once you have logged in every day for two days consecutively. At the end of BLOXtober, ROBLOX held a contest called RoblXtheRave, where people were given a chance to win a large sum of money in cash by answering trivia questions that were asked throughout October 11th-13th.

On August 9, 2016, ROBLOX launched the first RoblEX game, called "RoblEX: The Lost Robots". A new currency was also introduced in this update called "RoblECX" (Robux in a different form). This was the first time that RoblECX were ever used. Before this update Robux were used on both games and non-games.

However, there is no way to directly transfer items or coins between accounts unless both parties are friends with each other on ROBLOX; however they can work around this by transferring the item to a shared place and trading the item from that point.
