ROBLOX first came out in September 2006 when released the first version of their game Roblox Studio (similar to Scratch). This was the original creator of ROBLOX and was developed by Jason "Akile" Akilecz (JAMASOF) from October 19 to November 5. This is the first fully 3D program for ROBLOX. The original name was "Roblox", but it was changed due to a copyright lawsuit. The name was changed to "FunRoblox", and in 2008 the "Fun" part was dropped to make it simply Roblox.

Roblox Help on Steam (Steam Community) - This is a helpful site where you can find help on Roblox games. There are patches and fixes for the Roblox games that have been developed by the community. If you're having trouble with a game, this is where you should start. You can also find links to all of the Roblox games that have been submitted to Steam and nothing has been updated or released in a while. The page is organized in alphabetical order, so there's a good chance it will be easy to find what you need.

The company's revenue is seen as a key driver for future revenue. According to the Global Gaming Sustainability Report by Eilers Research, ROBLOX generated \$15 million in revenue in 2013 and \$135 million by 2016. The report also estimated that ROBLOX will see a compound annual growth rate of 106% over the 2015–2025 period. The company has also completed two rounds of financing, raising more than \$250 million in 2016.

The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China, with over 50% of revenues coming from China alone by 2021. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX. In late 2015, ROBLOX announced that they would be running advertisements on their site. Unfortunately, these advertisements were run-of-the-mill ads and did not produce any revenue for the company itself but also had a negative impact on their community as they were being flooded with ads featuring nudity, extreme gore, racism and other inappropriate content. In addition to this, many games would feature these ads despite not making any money from them themselves. ROBLOX was banned from Xbox Live in 2015 due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.
