On January 10, 2018 GamesBeat published an article that mentioned a new release titled "Coin Master: Poke Map" was being developed by United Pixelworkers for the iPhone. The game is available for iOS devices in beta form as of February 2018 and is free to download from the App Store. This title is an alternate version of "Coin Master" where players can view the world around them (using real location coordinates) and find loot based on their current location within the game. It also includes a newspaper titled "Coins & Curses Adventure" which is about "Coins & Curses Adventures". An article on the website says that the game was created to satisfy the desire of players for a Pokemon Go style experience with "Coin Master: Dig Deep".

This is a just fan site, we have no official relationship with Coin master game or any of its creators/developers. All trademarks belongs to their respective owners as well. We're just giving them a place to be used here. We don't claim to own them, we just put the opportunity into place for them",

On August 1, 2016 the game was removed from the Apple App Store. The game's developer said that "Coin Master" was being re-released on Apple devices in 2017 but there has been no further mention of this from Moon Active as of November 2018.",

Kingdom clash, game is awesome but by awesome gamer on 2017/11/07 03:05 I am playing this game every day. It's a really fun game to play. There are some problems with it. For example the in-game chat, there are too many ads and that's not good because my friends and I play the game and one of our friends said that there were over 30 ads in one day. Never minding that other friend said she got payed 5 dollars for a survey. I mean, come on. The price of gems are so high. I want to buy a lot of stuff but the prices are expensive. Good luck making this game better!",

In 2016, Moon Active released Coin Master: Space Invaders "(Kasegi 3: Aratanaru Jettsuu)" for iOS as a paid app (it is not available on Android). This "Coin Master" title features an updated version of the popular video game "Space Invaders". The game was released in Japan initially as part of Moon Active's "Coin Masters" series. However, this version of the game was never released outside Japan. This version contains micro transactions that can be removed by paying \$4.99 for an ad-free version. The user review for Coin Master: Space Invaders is composed of 4.5 out of 5 stars (out of 1 vote), with a user rating of 3 out of 5 stars (out of 1 vote).",
