On September 28, 2018, Moon Active released Coin Master: Puss in Boots "(Kasegi 2: Bukimi no Tane)" for Android as a free app (it is not available on iOS). This "Coin Master" title features an updated version of the popular video game "Puss in Boots". The game was released in Japan initially as part of Moon Active's "Coin Masters" series. However, this version of the game was never released outside Japan. This version contains microtransactions which can be removed by paying \$4.99 for an ad-free version. The user review for Coin Master: Puss in Boots is composed of 3.0 out of 5 stars (out of 1 vote) from 1 user, with a user rating of 4.0 out of 5 stars (out of 1 vote).",

Users have criticized Coin Master for its monotony and reliance on making users pay real money to progress in the game. A user review on iTunes complains that it is "just another collect-a-thon with a coin motif". The developer of Coin Master has countered this criticism by stating that they do not believe in "pay to win" video games and hope to provide their users with a fun and engaging experience.",

The game has been featured by Apple, Google Play and the App Store in multiple regions to promote its release. The mobile version of the game was the "App of the Day" on December 17, 2015 in South American countries, including Argentina, Brazil and Paraguay as well as being featured as a free app in Belgium for two days in April 2016.",

Too many ads by Pooptart on 2016/08/20 15:40 It's kind of annoying how often you have to watch ads. I mean, an ad after like every two or three levels is fine, but then they also have ads that pop up if you don't choose the right word..and those are frustrating as well. The game itself is addicting and fun, but I feel like it's hard to progress in the game without looking for answers online..",

In 2006 Moon Active released Coin Master for Game Boy Advance as part of their "Coin Masters" series. In this version of the game the player is presented with several flat screens and tasked with maneuvering 14 coins through each screen. Like the original Coin Master, once a coin reaches the exit door, that screen will be cleared of coins and new ones will begin. In addition to this time-based gameplay element, completing certain tasks with each level can unlock a variety of power-ups including 4 different types of bombs that can be used to clear out large areas of coins. Unlike its Game Boy Advance predecessor, this version was released only in Japan.",
