The graphics in Coin master are relatively basic, but they are bright and colorful. The game is based on the concept of a treasure chest, which is where you keep your coins. The coin master himself is a bearded pirate who is dressed in traditional pirate attire, and his second in command (who helps you collect gems) is an orange fish wearing a top hat and a monocle. Another big feature of the game is that you have your very own pet fish which follows you around while helping to collect coins for you - these pets can be unlocked by reaching certain levels or using gems to take care of them. Their names are Chippy, Daffy, and Popeye - the latter two can be different depending on which pet you have unlocked.",

Coin Master was generally received well by reviewers. Some praised the concept, artwork and its ability to provide both entertainment and nostalgia. Joystiq referred to it as a "trippy looking game" in their review. This sentiment was echoed by Gametrailers who referred to it as "unique". Other critics felt it was too similar to other games, especially "Tetris" and its clones, which were described as being overplayed in general.",

In March 2018, United Pixelworkers announced that in addition to adding new features and content to "Coins & Curses 2" such as a higher level cap and additional cards, they were also working on a PC version of the game titled "Coins & Curses Adventure". This title will be an "RPG style" adventure game based around a similar theme.",

On August 8th, 2017 United Pixelworkers announced that they would be launching a Kickstarter campaign to raise funds for additional art assets and animations for the game. On September 15th, 2017 United Pixelworkers released their Kickstarter campaign page and began accepting pledges to help support development of this title. The goal is to raise \$50,000 USD by November 5th, 2017. The campaign was funded by over \$70,000 USD on November 5th, 2017.",

Great by I'm horrible at this on 2013/01/27 01:34 This app is really fun and addictive, but it has a lot of adds and if anyone knows how to get rid of them or change the amount of them I would be very thankful. Also, I don't care if you have to pay for the in app purchases like some games do, but sometimes it's annoying to see an add when you're almost done with a puzzle.",
