Overall I found Coin master to be a fairly quick game to play, although it is not as addictive as some of the other games on this site. I would recommend giving it a try for 50 minutes or so and see if you enjoy it before you decide whether to purchase it at all. The game itself is free but there are unlockables such as achievements and costumes which can't be unlocked unless you decide to spend your in-game coins (which costs about \$2 per million coins). You can also still play the free version of the game without spending your coins, but you won't be able to unlock all the achievements and costumes as you progress through the game."

Users have criticized Coin Master for its monotony and reliance on making users pay real money to progress in the game. A user review on iTunes complains that it is "just another collect-a-thon with a coin motif". The developer of Coin Master has countered this criticism by stating that they do not believe in "pay to win" video games and hope to provide their users with a fun and engaging experience."

This is a really good app to play with your friends. The app stay in memory after closing! If you like Coin master, please give it a rating in the market. Thank you so much for your time!";

Players earn coins from every completed quest type and can exchange their coins for real monetary value at the "Coin Master" website. There are also certain booster packs that can be purchased for real money which contain random rare cards that can be used in quest matches."

"If you have been looking for the best way to have fun with coin master free spins and unlimited coins, Coin Master Puss in Boots Hack MOD APK is one of the best tools available on the internet. Download it now to enjoy unlimited amount of coins and free spins that will last for hours." This is one of the best games ever. The graphics are great, the soundtrack is good and I really like how it uses my location to make the levels more interesting. The only problem with this game is that although, it's a free app...it's not actually. You can't get far without having to spend a lot of your real money on extra lives and coins. Even though you can earn free lives by watching videos or playing other games, it's still not enough unless you buy some more which cost actual money. That's why it's not really free, but it was a great game while I could play it. "Greatest game ever! I love this game because you can play with your friends in any place and this is a best game." "I really loved this game! It is simple and so much fun to play. My favorite part about the game is making alliances with other players and working together to defeat bosses. But there are some issues with the app... right now, I am stuck inside of a picture puzzle that will not let me continue. I have deleted and reloaded the app many times but nothing has helped. If I can't get out of the puzzle, I will have to delete the game. Also, many other players have told me that they wish there were a way to get better armor without having to pay real money. Overall though, this is still one of my favorite games and I don't want to delete it." But you did... so what do you do? Delete it. This is a game that has enormous potential. However, when your goal is to collect spins and the more you play, the less spins you get...there's a problem. Without paying real money, it takes forever to level up. If the developers would get rid of the need for real money to enjoy this game, they would make a lot more fans and earn more of that currency than they already are... real money. If I was developing this game, I'd make it fun for those who aren't going to pay for extra lives or coins and find ways to build loyalty with your fans instead of constantly making them feel like a cash cow walking into a slaughterhouse. This game has so much potential, but in its current state I can only say this about the game... "It had promise.""
