"Best game ever! I love that you can play with friends anywhere, even when not connected to the internet. This game is so worth playing because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money." In 2014 Moon Active released Coin Master for Android as a paid app. This version of the game is still completely free to play, but the developer decided to introduce micro transactions and ads in order to monetize their efforts.",
