The art-style is that of a retro style 8-bit game and the stages in the PC version are represented by a 2D top-down perspective where the player controls their character using a keyboard, mouse or touch pad. The mobile versions are more casual and use intuitive finger gestures instead of keys to move through gameplay. The mobile versions have 3D artwork rather than 2D sprites while also allowing the player to interact with their environment and other characters as they play. Each coin character has its own unique abilities while all coins have different stats in speed, attack strength, maximum health points and jump ability. The player can also collect coins and turn them into gems and the player can use these to buy new items.",

As part of the "Coins & Curses Adventures" announcement on March 8, 2018 United Pixelworkers revealed that four new characters will be added to the game. The character and class types have not yet been announced, however they will be based off of a theme relating to real-world maps; these characters were introduced in-game on June 29th through the mobile version of Coin Master. One character was revealed each day until July 2nd when all four were revealed.",

Great app, but... by Anubis_In_Da_Club on 2013/11/27 15:02 I love this game, but I hated the fact that you had to wait a while until you could start another game. It was very frustrating. Overall, it is amazing! It's my favorite game because it's not like every other puzzle word app there is out there.",
