It is important to know how hackers gain access to Roblox accounts because of its impact on society. Hackers love discovering new ways to hack into people's accounts and bypass security measures that have been set up by Roblox. In order for this problem to be solved, it is not just up to Roblox but also the users who play it as well. Roblox needs to be more active in providing information on this issue and what hack protection measures are available to its users. Roblox also should be alerting people when they are hacking or when their accounts have been hacked.

Roblox Forums on ImageLoupe - These forums are great for finding technical help on a wide range of topics such as how to get better at building or getting cheap tix with cheats or exploits. Roblox Wiki - This wiki is the main Roblox official documentation for the game. It's a great place to start to learn the basics of Roblox.

In ROBLOX, safety is one of the main concerns facing parents. The website can sometimes be a risky place for children because they sometimes come across people being rude, bullying, etc. [138]. ROBLOX is doing its best to make sure that its users stay safe while playing games. First, ROBLOX has safety features in place. A "report user" button is at the bottom right of every player's screen. This button appears if someone is acting rude to you in a game. Pressing it leads you to a page where you can add as much detail as you can about what happened and why it was wrong. The person reading the complaint will then investigate the situation and take necessary actions towards offending players. Players have also found ways to use this button for wrong reasons, like falsely reporting users to get them banned from playing ROBLOX.

I know I made this review long but please read every word because I put a lot of effort into making this review good and hopefully it can help someone. Thank you for reading and keep in mind that this is not my full opinion on Roblox it is just a suggestion to help improve the game for everyone who plays.

Rated 3 out of 5 by Anonymous from Neat Interesting game where you can build your own games. Not really too into it though to be honest. I'd suggest if you want something like this get Minecraft. Rated 5 out of 5 by Anonymous from I love roblox! Roblox is the best game ever! It has a lot of stuff to do, and there is always someone to play with.
