Rated 5 out of 5 by Anonymous from It is very fun! I love this game and will forever. I have a lot of friends that play ROBLOX so we play ROBLOX together. But we also make our own games in ROBLOX STUDIO so me and my friends can play them together to see who wins! Other than that, you just have fun on ROBLOX and get to know people a little bit better. I really love it! I think you should try it out! You can make a game on ROBLOX STUDIO which is super fun.

Since its launch, Roblox has had many updates. These updates affect the gameplay and/or user experience at all levels of the game. Some updates, such as "Roblox," have been launched by the company itself. Others have been launched by third-party developers or players in the game.

Users can report a game if they feel like it does not follow the rules. Either the game will be deleted or the owner will be warned, but most of the time the game is deleted. On January 5, 2017, a legacy avatar called Trollface became unusable because of DMCA claims from its artist. As such, ROBLOX disabled all avatars that use his artwork. It was later re-enabled after copyright claims were retracted.[39]

On September 11, 2018, Roblox announced that they would be adding new systems to help curb and prevent problems like "Miner's Haven". They stated that users who are reported for breaking these rules will be put on a probationary moderation period, or P-mod. P-mods can say they had violated these rules for up to 72 hours. If the user continues to break the rules and continue breaking it after 72 hours, Roblox will issue a permanent ban for both the user and their account. The users who are in this moderation period will not be able to play Roblox games until 72 hours pass from when the user is released from the P-mod status. The users will also receive a warning from Roblox before they are released from the P-mod status.
