In 2014 the company sponsored an event at the Children's Museum of Pittsburgh to raise money for charity (Charity Water). This was called Roblox Builders Club: Multiplayer Tournament which raised over \$6,000 for charity water.

The code that has been provided with the promotion will reveal how much free robux is going to be provided with it. Once the code has been used, all of the games that are being played will be completely free.

Hacking Roblox is a problem that will always exist. This is because there are many different forms of hacking that are constantly evolving. One of the most common methods of hacking Roblox accounts today is through phishing. This method involves an email being tailored to look like it came from a trusted sender to gain access to a person's account and information such as passwords, usernames, mother's maiden name, Robux balance, etc. Another way that hackers hack into Roblox accounts is through using proxy sites. This method involves people using websites that offer their own proxies in order to hide their inputs and output information from the public eyes. People can hack a password by using the obtained information from other websites and then use an automated script to guess the password. This method is not only used for Roblox, but also for other accounts that are associated with games.

Due to its age, ROBLOX games often contain bugs and glitches; it can be difficult to get rid of these glitches. Some users have even taken to modifying the game engine to bypass some of these bugs, as well as creating their own games and uploading them to Roblox without permission.

In October 2016, many games were allegedly hacked by a group calling themselves "The Bureau". The group claimed to be responsible for hacks on other popular websites such as YouTube, PSN, Microsoft's Xbox Live and Blizzard Entertainment's Battle.net. The group also claimed to have over 2,000,000 players' personal information.
