On January 12th 2019 RoBoX Studios uploaded a video of them waving in front of cameras. The description of the video said "Moped Wave" and there was a picture of the thumbnail saying "Moped Wave". Fans thought it was an advertisement for one of potential future projects. A few days later they uploaded a second video called "RoBoX Studios". This time they were counting to 12 in front of cameras with different colored backgrounds. On January 22nd 2019, after over a month, they have uploaded another video titled "RōBux". The description teased about a possible RōBux 2, which is a mini game in ROBLOX which is cash oriented. On February 18th 2019, they have posted another video titled "RSK", which is short for ROBLOX Studio Kit. This video showed three new projects that were planned to be released with tips on how to create them. On February 19th 2019, they had uploaded yet another video titled "ROBUX". This was a video where it showed a projected page about ROBLOX and what people play. The description read "ROBLOX has more than 200 million users who love playing Roblox games! Which is why next week we will be releasing RSK - the new Roblox Studio kit! It will feature tons of cool features and tools you can use to make awesome 3d games. Keep an eye out for RSK next week. The post was then deleted, then the video was deleted, likely to stop rumors and speculation of a new studio kit.[48] On February 26th 2019, they released RSK to the public under build mode.[49]

The Chat Room is an area where players can talk or text either with themselves or with other players. The chatroom is separated into different categories, depending on what players are doing. Normal chat rooms for most players will probably contain users asking different questions about the game as well as people chatting about their creations. Other chatrooms include a room where people can indicate whether they want someone to play their games or put them up for sale and a "Celebrity Chat" that allows known celebrities to visit and hang out in the chatroom.

These cheats are very easy to set up, all you need is a working internet connection in order for them to activate properly. All of this will only take a couple of minutes, so it is very easy. Once the setup is done then simply go over the commands that are given with each cheat listed. The step by step instructions will make it a lot easier to use these cheats for free robux.
