Roblox has been accused of neglecting its staff and failing to offer development positions to its employees because its staff is almost entirely composed of white males, even though Roblox's community has been growing in diversity for years.

Roblox is a multiplayer online platform for young people to create their own Roblox. One of the features that the app can offer is the ability to speed hack. For example, if you've been playing for a really long time and want to go into the game room before it ends, you can use this feature to speed hack before anything interrupts your game session. Roblox allows you to have complete control of what happens in a game or app by integrating new APIs (application programming interface).

ROBLOX also has a wide variety of blueprints ranging from minigames to full games. ROBLOX's game engine runs within their own website, which they call the "Roblox Platform". The platform also has its own virtual servers that are separated between each user (known as Virtual Worlds). ROBLOX licenses the servers from Sabre Corporation. This means that the servers benefit ROBLOX and not any individual person or company. A private server is solely controlled by an individual and can only be accessed through the client provided by them.[33][34]

On multiple occasions, ROBLOX has been hacked into by outside sources. In one of the more recent hacks (2012), hackers took advantage of an exploit to provide themselves with unlimited build tools in games. Users without knowledge of the exploit were forced to leave the game because the tools were infinite and other players could not stop them. This issue was not fixed until two days later. [9] ROBLOX has a rule against using bots (automated scripts that allow players to automatically perform actions) but this rule can be easily bypassed due to the fact that users are able to easily create incredibly powerful bots with simple scripting. The easier ROBLOX makes it for users to create powerful scripts, the more likely they are going to be used in botting and/or spamming games. This is one of the reasons why user-created games like "The Plaza" have been taken down.

On June 7th, 2012 ROBLOX launches "ROBLOX Inc." On September 8th, 2012 ROBLOX launches "ROBLOX Corporation". On November 17th, 2012 ROBLOX and Hintons Online Group Inc. announce that they will make a \$1 million donation to the Myeloma Research Foundation. On December 3rd, 2012, a new trailer was released that has KidScape in it. On December 11th, 2012, a new trading system was added. On December 19th, 2012 a new advertisement of KidScape was released. On February 25th, 2013 another KidScape trailer was released. On March 22nd, 2013 a new game called "PopularMMOS Sandbox" was released.
