Most YouTube videos will give you a link that will provide you with a free Robux reward. The amount depends on how many views the video has and the number of subscribers the user has. For example, if an account has over 1 million subscribers, they'll give an extra 2,000 robux for any views that would put them over 10,000,000 views; however this only applies before rewards are scaled down.

Using this tool can help individuals save time and energy while at the same time giving a boost of motivation due to increased activity on their Facebook presence. The free robux script can be beneficial for all kinds of Facebook users since it can be of use to anyone who wishes to grow their presence on Facebook.

ROBLOX collects account information from users using its Trusted ID system. The process is designed to make it easier for ROBLOX to provide players with a personalized experience and more opportunities to earn credits online. The program does treat user privacy concerns seriously, however, and requires notice before any account information becomes public. Players can adjust their personal settings on their profile page on the website.

On November 29, 2018, ROBLOX announced that they are partnering with Spin Master which will have various toys and scripted interactivity come out in 2019. The app will be called Spin Master Stories.[51] On December 11, 2018, ROBLOX announced that it would be partnering with LEGO to put the LEGO minifigures in the game. The toys will be available as virtual items for purchase.[52]

ROBLOX announced the launch of an app called ROBLOX Studio in July 2009, which allows players to make 3D videogames using ROBLOX Soft, or Lua scripting. These games can be shared on the website and with friends via social networking and email, making the virtual world even more alive than ever before. The app is free, but users must pay for revenue sharing of their games. On January 30, 2014 ROBLOX released its first app exclusively for iOS devices called "ROBLOX Studio" which puts a lot of its features into a more user-friendly format that previously had to be accessed through two separate products.
