On July 31st, 2019 ROBLOX released another version update for Studio 2.1 (known as "Studio 2.1.1") which fixed a lot of major glitches and bugs that were present in previous versions of Studio and also included a better way for players to customize their own physics settings.

On March 3, 2008, ROBLOX released a new logo for the website after receiving much criticism from its community for changing it in late 2007. The new logo removed black completely from the original logo and changed the font to match that of RISC OS. The new logo was the same as it was before, but added a small "2" at the bottom of the logo.

The company released "Build a Buddy" in February 2018, which allows users to create customizable figures of themselves. On November 13, 2018 ROBLOX released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

This will work on all of the ROBLOX games because it is an official application so that makes it even better. It is completely safe to use as well so there shouldn't be any problems with it after all. Also, the generator is powered by advertisements so you might encounter a lot of ads after you have connected your account with the generator. Just click on "Generate Robux" in order to start generating free robux for roblox.
