On July 19, 2018, ROBLOX launched a new mobile app called ROBLOX Mini. It is aimed towards kids below the age of 6 years old. It allows players to play mini games as well as create items for their mini-game and have a catalog of characters to dress up as.[50]

In 2014 the company sponsored an event at the Children's Museum of Pittsburgh to raise money for charity (Charity Water). This was called Roblox Builders Club: Mutliplayer Tournament which raised over \$6,000 for charity water.

ROBLOX has been criticized many times since it's creation. Many users have been dissatisfied with ROBLOX's in-game currency system which involves real money transactions. The price of things such as hats and shirts can be absurdly high, which causes some users to scam others out of their money. This can discourage people from making positive contributions to the game due to its poor reputation among many players.

In February 2017, ROBLOX had \$3 million in revenue.[53] They had \$9 million in revenue in May 2017.[54] In February 2018, ROBLOX had \$16 million in revenue.[55] The list of minimum system requirements for running Roblox can be viewed here: System Requirements for Roblox (supports Intel HD Graphics 3rd generation or newer). All of the requirements listed are "minimum" requirements for running Roblox. Many people play Roblox on a computer with older graphics cards, or even without any GPU at all. Roblox can be run on many different operating systems, such as Windows, Mac OS X (Snow Leopard and below), and Linux (Ubuntu and below). It has also been confirmed that Linux can run ROBLOX.[56] The minimum system requirements for running ROBLOX on Linux are listed here: Minimum System Requirements for Running ROBLOX (supports OpenGL 1.0 of higher).
