Rated 4 out of 5 by Anonymous from It's really great and I love playing online with my friends. Its a really great game and helps me with my learning skills. I have lots of friends and we sometimes all play online together. It's like virtual reality but not really but still fun to play :)

This game has a lot of issues and some of them are not being fixed. 1, Roblox's profit issues are really bad, most of these profit issues are being given to travis, they give him most of the money even though most people have less than 5 dollars on their account. 2. There needs to be a code that places your character on trial for inappropriate content and it is not even against ROBLOX's rules but I am giving this code to you.

The last way that gives users the chance to get free robux for Roblox is through in-app purchases. Some games have a feature where players can spend money on in-game items such as weapons or accessories. This may not be the most efficient way of getting free robux, but it is a good option for those who have never tried it before. You might find that you enjoy this particular feature and want to use it more often so that you can collect more free robux to your account.

The site is very buggy due to the fact that user-created games are made in such a way that users can alter almost every aspect of any game. However, this has upsides too as users can fix most bugs themselves. They have often been taken down because they are "offensive". This is hard to believe since the site has been around for nearly 10 years. ROBLOX allows people to advertise on their site for just about any product they want and will let them earn money with it. However, this can be considered a bad thing in some cases, as advertisers can create "scams", such as charging people \$5 dollars to create a game that can only be played by Admins or other users with unusual settings/roles.
