ROBLOX does not allow players below the age of 13 than sign up for an account. This is because of the maturity level that ROBLOX expects all players to have. ROBLOX does not allow users to make profanity in the game and the server does not allow it, however there are many areas on the game and on their website that do, such as chat boxes in games. They have also recently added a filter button which blocks certain words from appearing in chat. This feature was created to block words that appear to be offensive and potentially harmful at times.[42]

On February 4th 2019, ROBLOX released some updates for their Studio 2.1. They stated that they would be making many fixes on their website to improve the experience and to make it more stable and bug-free.[95] On February 11th 2019, ROBLOX released "Studio 2.2" which was a major update which contained bug fixes and minor improvements. On February 12th 2019, ROBLOX released "Studio 2.3" which was another smaller update containing bug fixes and minor improvements.[96]

If you play "Robloxian life" long enough, you'll notice that the costs really add up. For every point someone wins, the game will cost the player between \$3-\$10 depending on how many points are needed to win a double prize. Although this is not completely true for all games, it does affect most games so players can expect to spend a lot of money just for some points or winning prizes.

On November 2nd, 2018, ROBLOX announced that the company is looking into implementing state-of-the-art anti-cheat technology. This was made to reduce the chances of "botters" putting random objects in games that don't belong there or making designs that look like they can be through a video editor. The company also stated that if there are any issues with their anti-cheat software, they will let everyone know as soon as possible.[24]

In March 2017, ROBLOX added a new feature that allows builders to use an already existing image of a face as their character's face. The face can be uploaded from the user's computer or through an online camera. This feature has been disabled for the 2017 Halloween game The Mad Murderer.[38]
