Boring by tommissausage on 2016/10/31 12:19 With over six hundred levels of play, this game should get a lot more attention. Don't get me wrong, the graphics are good and the gameplay is engaging, but it's just so bland and uninspiring. It's like a run of the mill jigsaw puzzle with puzzles you've seen before. It also never lets up with adds and very little feedback when you successfully complete a game level. There should have been some form of ending criteria as well as feedback on your performance in game mode. Simply put: it's just boring",

Coin master game is another fun and entertaining online game that will allow you to play in your spare time. This online game is very similar to 2048, but with a unique twist to it. It's a coin-flipping game, where the next turn can be the start of another new chain! If you love crossing your fingers and hoping for good luck, then this is the perfect online game for you. In Coin master game, we are able to get three chances every round which will make this an exciting yet challenging experience for players of all levels!",

The developers of Coin Master have said that the game is not free to play but does include advertisements. A user review on iTunes states that "The main problem I have with Coin Master is the lack of gameplay variety and difficulty spikes" and remarks that "once you've played through a level, chances are it won't take you long to beat the next one". The developer of Coin Master has countered this criticism by stating that they are "working to add difficulty spikes and more levels in order to make them more challenging and replayable".",

"This is one of my favorite games because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money."",
