Not all games are created equal and often we see them develop at an incredibly fast pace which makes us believe that this process will be smooth and easy but it doesn't always happen that way: first of all, people often have unrealistic expectations for themselves and secondly they forget to look at what others are doing and how the market reacts to new games.

On multiple occasions, ROBLOX has been hacked into by outside sources. In one of the more recent hacks (2012), hackers took advantage of an exploit to provide themselves with unlimited build tools in games. Users without knowledge of the exploit were forced to leave the game because the tools were infinite and other players could not stop them. This issue was not fixed until two days later. [9] ROBLOX has a rule against using bots (automated scripts that allow players to automatically perform actions) but this rule can be easily bypassed due to the fact that users are able to easily create incredibly powerful bots with simple scripting. The easier ROBLOX makes it for users to create powerful scripts, the more likely they are going to be used in botting and/or spamming games. This is one of the reasons why user-created games like "The Plaza" have been taken down.

ROBLOX originally only accepted payments through cryptocurrency, but later, it was changed to cash prices. The Roblox Corporation is a business that created ROBLOX as well as many other games such as Bloxburg and Bloxburg B.V.. Bloxburg B.V. was a subsidiary company of ROBLOX that was formed in September 2015 to create the HTML5 version of Minecraft. They have created some "Minecraft-like" games such as SEER and INRIX, as well as the HTML5 version of Minecraft itself called "Bloxburg".

I love roblox because it is filled with amazing games. Also, I think it needs more easy to download games and more new games. There are lots of great players that are making great games but they feel unappreciated because if there is a new update some other player comes onto their game and steals their ideas so that doesn't make them happy. I also think that there should be easier ways for players to get to private chat or opt out of chat but not everyone would like being in a public chat room which would only make them mad. I like being in a private chat room with my friends because no one else can get into the room and report us for saying bad words.

On March 3, 2008, ROBLOX released a new logo for the website after receiving much criticism from its community for changing it in late 2007. The new logo removed black completely from the original logo and changed the font to match that of RISC OS. The new logo was the same as it was before, but added a small "2" at the bottom of the logo.
