In February 2018, the app was reported to have signed a deal with Universal Music Group in order to launch a new feature called "Advertise" later that month. The app became the first musical platform in Asia to offer this service which allows users to purchase their own song for \$2.99 USD, or sponsored content, with real money. However, it has been reported that TikTok was unable to sign up Universal Music as an artist on its platform to allow its artists and users in India to make money from it.",

On September 6, 2018, TikTok collaborated with the BBC to launch a series called "Ask Me Anything." Users were able to submit questions about anything from their personal lives to what they thought about politics. The videos were branded with BBC's logo and had a link to the channel on the app. After the videos had been posted, the company announced that they would be taking action against any inappropriate content on the app. The company said that there were "two clear issues around our policy" and that they would be working to fix it. The first was that "the app is for 14+" and that children under 14 were able to register on the app even if they did not have consent from their parents. The second issue was a lack of enforcement when it came to inappropriate content in videos. Following this event, people under 18 were no longer able to create accounts on TikTok without consent from their parents or an adult guardian. The company also said that they wanted to give young people a platform to express themselves and help them understand that they can have fun but not in a way that could cause harm to others.",

TikTok was created with the mission to connect people across the globe in a fun and easy way. The app has deepened people's understanding of other cultures. Tiktok encourages users to "share their lives" and "explore their world". It can be used for simple tasks such as contact information exchange (phone number, email address, social network usernames) or creating a photo album of special moments with friends. This makes it a great option for messaging new people from different backgrounds. It allows non-verbal communication between users like facial expression and emotions as well as vocal secretion by voice recording. The concept of the app is to bring people together for a common experience and to build friendships.",

On February 24, 2018, the second season of "Funny or die presents" was released on the app. "Funny or Die Presents" is a popular series hosted by comedian Ellen DeGeneres and features different celebrity guests each week. The cast for the second season include different celebrities such as Michael B. Jordan, Wiz Khalifa, SZA and others.",

TikTok also contributes to issues regarding copyright infringement by allowing users to use copyrighted material without permission. TikTok's advertising model allows users to receive payments from brands to create, upload and share their own videos or posts, similar to Instagram. However, due to the difficulty of tracking the engagement that its user base generates, TikTok has been called out for the low monetization rates it offers its creators.",
