In 2010, ROBLOX again added games such as: 'Mech', 'Space Age', 'Pirate Invasion' and more. The game 'Brothers in Arms' was also released on January 23, 2010. The game 'Brothers in Arms' was a multiplayer online shooter with three different game styles: Team Deathmatch, Free-for-All and Capture the Flag. On March 11, 2010 ROBLOX released the first game that successfully made it to Steam titled "Guitar Hero For ROBLOX". The success of "Guitar Hero for ROBLOX" led ROBLOX to start working on their own downloadable games.

On July 3rd, 2018, ROBLOX announced that they were no longer allowing people to make custom models for their games. Instead, they would be allowing users to build blocky models that could not be edited at all. They stated that this would prevent the creation of custom models and save money by preventing expensive data transfers.[22] The change was made in order to clean up the game because custom models complicates the "Roblox experience" in some cases.

On December 30th, 2011, Roblox sent a DMCA notice to Awaited Studios to take down "Infinity: The Quest to the End of the Universe" after noticing that they were releasing code from ROBLOX in their game. Since then, the company has kept all of its released code in a separate source file called 'robux'.

On July 31st, 2019 ROBLOX released another version update for Studio 2.1 (known as "Studio 2.1.1") which fixed a lot of major glitches and bugs that were present in previous versions of Studio and also included a better way for players to customize their own physics settings.

In conclusion, Roblox is not only a highly addictive game but an educational one as well. It is easy to see why so many kids love to play this game! ROBLOX offers a large variety of games for many different audiences. It also has an excellent system for users to generate custom content so anyone can have their dream game. All in all, this is a great game that everyone should try at least once.
