The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China, with over 50% of revenues coming from China alone by 2021. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX. In late 2015, ROBLOX announced that they would be running advertisements on their site. Unfortunately, these advertisements were run-of-the-mill ads and did not produce any revenue for the company itself but also had a negative impact on their community as they were being flooded with ads featuring nudity, extreme gore, racism and other inappropriate content. In addition to this, many games would feature these ads despite not making any money from them themselves. ROBLOX was banned from Xbox Live in 2015 due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.

In January 2016, the Roblox developers said they will be working with an external security firm to enforce a set of rules, and would only support third-party software that is approved by their partners.

I just wish we could have stuff like spoons on roblox and we could make furniture like tables and chairs or a cabinet and some chairs for our avatar. Also I want to be able to make my own game make it like Roblox survival! Please please please update roblox so that we can have stuff like spoons and a table and chairs for our avatar thank you. When there is an update that takes away all the content from one of the games I played, it's sad because I enjoyed it... And other people enjoyed it too.

Some of the most popular games on Roblox are roleplaying games, which allow players to create their own character and explore a world with other characters created by other players. These games are incredibly fun and addicting, especially if you want an alternate form of social media that is not just photo posting based.

In December 2011, a lawsuit was filed against Roblox for copyright infringement, in which ROBLOX is accused of copying the entire codebase and game assets of "Infinity: The Quest to the End of the Universe". A cease and desist was also filed against ROBLOX in September 2012 by a head developer from the website Games Done Quick for using their copyrighted content without permission.
