Most YouTube videos will give you a link that will provide you with a free Robux reward. The amount depends on how many views the video has and the number of subscribers the user has. For example, if an account has over 1 million subscribers, they'll give an extra 2,000 robux for any views that would put them over 10,000,000 views; however this only applies before rewards are scaled down.

The chart below contains the top 5 accounts with the most amount of plays on ROBLOX in that year (as of December 31st). This chart is directly taken from ROBLOX's blog post for each respective year. ROBLOX games have made the news many times in the past. Below is a short list of some of them.Prior to 2011-2012, ROBLOX game developers were responsible for any known instances of hacking that happened in ROBLOX. There were also older instances where hackers had not yet discovered the community, but eventually did so, and started making exploits on their games that were very popular (such as "Hacker Escape"). Hackers also used an exploit to gain access to admin privileges on a game called The War Factory, which had over 500,000 concurrent players at once. When this was discovered, the hacker was immediately taken down by ROBLOX's staff.

This one is a really annoying method to get free robux but what you can do is take advantage of the events. If there is an event, then you should grab your friends and start playing as well. Once you play for a certain amount of time, then you will get a lot of free robux. The more friends that are playing during the event, the more free robux you will be getting.

As I have mentioned before, there are a lot of other generators available on the market. However, I only recommend that you use this and the Rosetta Brothers Robux Generator because they work perfectly and they don't show any problems after some time has passed by.

On November 11th 2016, ROBLOX added a feature called "ROBLOX Backpacks" to its website. Almost immediately after the release of this feature, a large amount of "spam" messages began to appear on social media platforms such as Twitter and Facebook. These occurred in the form of "spam links" that were posted by players who were seeking to make a profit. Roblox later modified its terms and conditions which resulted in all links being blocked from being posted until December 22nd, 2016.[76]
