In October 2016, many games were allegedly hacked by a group calling themselves "The Bureau". The group claimed to be responsible for hacks on other popular websites such as YouTube, PSN, Microsoft's Xbox Live and Blizzard Entertainment's Battle.net. The group also claimed to have over 2,000,000 players' personal information.

Although the app is designed for ROBLOX users to chat and connect further outside of the website, it also has additional features similar to those available on ROBLOX: users can play games together through group chat, use images and video to communicate with their friends, and create customized avatars for themselves.

The free robux card codes are the cards that were given out to players who completed a certain action on Roblox. The player would then be able to collect the card and have it autoclaimed as soon as they logged into Roblox. Codes could be used to redeem the extra Robux and Builders Club. Codes were received through several different ways. Players could receive a code from a friend, or they could get a code from the internet. Codes were sometimes given out for certain reasons, such as attending conventions for Roblox (ROBLOX RocketCon) or writing about Roblox on your blog/website. Codes are autoclaimed when you log into your account on ROBLOX.

This tool is very easy to use, and you will always have a ton of fun with it. In my opinion, this is one of the most efficient ways in order to get free robux on roblox. It has been tested by several players already, so it seems to be reliable enough.

Rated 3 out of 5 by Anonymous from I like this game I think that this game is good and it's fun. Rated 4 out of 5 by Anonymous from So cool! My friend told me to download roblox and I did it but the only problem is that there are so many things to download 20gb but overall it is so cool I love it! Rated 5 out of 5 by Anonymous from Fun Fun Fun Great game for all ages. It shows you the basics on building your character and some scripting as well. Not to mention, the multi-player features that ROBLOX provides.
