On July 31st 2019, ROBLOX announced they would no longer be supporting this feature, and will be removing all games that are now using this physics system from the ROBLOX Catalog. This will affect nearly every game and millions of gameplay hours into future. The reason why they are discontinuing the feature is because most games with custom physics settings were [[Rage Quitters's favorite targets, and almost all of them are either unplayable or broken due to Roblox's buggy physics engine.

Rated 5 out of 5 by Anonymous from I love this game! ROBLOX is the best game ever! I have been playing it for over 2 years and it has never got boring! There are over 1 million games on it so there is a huge variety to choose from. Rated 4 out of 5 by Anonymous from IMPROVES MY CREATIVE SKILLS This game is really fun you can be a teacher a doctor or even president with your friends or just by your self, this game teaches me lots of things like: building acting and more things that makes me get better at life.

There were a lot of concerns about Robux before the update that made it easier for players to get it, but some people still believe that Robux is manipulative and favors the developers. In the "review" section, people criticize the developers for doing what they wanted to do and not caring about what people think.

Rated 4 out of 5 by Anonymous from Pretty Fun This game is fun and very addicting but would probably be more fun if you had a personal computer or notebook. And sometimes there are annoying adds but overall its a great game if you want to have some fun with your friends online.

Some people just find it hard to see how many Robux they will actually make from their personal game development because the process is difficult and lengthy that the estimated amount of time it takes just for 1 point can be up to 6 months.
