There are two ways of connecting to your server: first is by using a computer directly connected to the internet through LAN (Local Area Network) port, and second is by using a mobile phone, tablet or any other device connected to the internet through WiFi or Data connection. If you choose the second option, please make sure that the username and password you have created for the account on Minecraft Bedrock Server are valid and correct. For best results, you should use a password that will not be easy for hackers to guess and change frequently. Also, please watch out for suspicious emails that inform you about your account and try to trick you into entering your username and password.",

2016-05-02 Note: In this version of Minecraft, we still allow players to release modified versions of the game. However, servers must use the Minecraft branding for server names and server skins.",

The game features a dedicated server browser interface on the official website which allows players to choose from a selection of servers to play on, although these are not all guaranteed to be free from hackers and cheaters. Note that some servers may be permanently locked by hackers as a form of revenge. To gain access to such rarer servers players are usually required to send an email request.",

Minecraft is a great way for everyone to play together, and by installing different mods you can take it to new heights that it never knew that it was capable of reaching in the first place.
