Rated 4 out of 5 by Anonymous from It's really great and I love playing online with my friends. Its a really great game and helps me with my learning skills. I have lots of friends and we sometimes all play online together. It's like virtual reality but not really but still fun to play :)

People may think that Roblox is a very childish game but in reality it is not. I have seen many adults playing this game, and I believe that they just maybe started in the past few years. The reason why people say Roblox is a child's game is because it has some pretty high minded themes in the games you can play. For example being able to make your own avatar or being able to decorate your own house, these are things that at first glance seems like something you'd do with your friends or family. Of course these are just things to make players feel good about themselves. But really the game is not about anything but just making a character and having fun.

On April 27, 2018, ROBLOX released its own virtual reality headset on their website known as the "ROBLOX Visor." The headset is created in collaboration with Carl Zeiss AG. The headset has a retail cost of \$99 USD and comes with an HD screen capable of playing 2D and 3D content. The headset was also officially launched at E3 2018.

ROBLOX TV and the Roblox Channel: On September 22nd, 2018, ROBLOX released an official channel for their website named "ROBLOX TV". The channel showcases many games that can be played on the website.

On August 31, 2017, there was a large lawsuit that ROBLOX was involved in. The user "Bella Thorne" had an unverified account that was deleted by ROBLOX due to copyright claims, although these claims were proven false. Then, the account was deleted and the user made a video about how her account got taken down, where she shows screen caps of some users who hate her on the website, as well as saying several bad words such as foul language and racial slurs.
