The game was originally named 'Pixelmon' by the creator of Minecraft, Markus Persson (also known as Notch). It was inspired by crafting games like Little Big Planet and the popular multiplayer game World of Warcraft. Minecraft, like World of Warcraft, is a game that is played in a virtual world. It does not have a storyline or character progressions like most RPGs do. Instead, Minecraft offers players the possibility to build almost anything they want. You can create the same things that you see in Minecraft with your own imagination and creativity.",

With the release of Minecraft Bedrock Edition, Mojang team also announced that they will support servers better than ever. That means that once you launch a server, no one can stop it unless you shut it down yourself. Before this update, if your Anti-Cheat software is not updated, or you don't have a firewall but still want to run a successful server, people can easily hack into your server and ruin everything. With the new updates coming soon to Bedrock Edition servers, this problem will be solved and everyone will be happy playing on their favorite servers.",

You can play in multiplayer mode and it's really easy to make an account. All you need to do is to open Minecraft app on your phone, type your username and password and then you're ready to go. It has all the features of all other versions of Minecraft. You can see how the game looks on a mobile phone here .",

It will then ask you to choose which feature you'd like to use. A lot of these tools are completely free and work with the game. Other features will require a premium account and previously purchased credits that you can buy using PayPal or by using an e-wallet service like PaySafeCard, Skrill or even a credit card. Once you've chosen the features that you want to use, click on "Start" again and wait for the hack tool to complete its tasks. This time, do not be impatient and wait with the result. This time, you should get a success message and your account will be free of all limitations. Enjoy this free jewelry!",
