There were a lot of concerns about Robux before the update that made it easier for players to get it, but some people still believe that Robux is manipulative and favors the developers. In the "review" section, people criticize the developers for doing what they wanted to do and not caring about what people think.

My favorite thing about it is that you can make your own games, and make them have whatever apperance you want. Also you can create things like your own characters and all kinds of other things too! Rated 5 out of 5 by Anonymous from I love this game! This game is so fun and addicting! You can create your own avatar or characters and make them the way you want to. Then you can go on adventures with your friends all over various places, such as the woods, Medieval times, Downtown, or even outer space. You can do this in a bunch of different games. Not only is there adventure games, but you can play games like a shooter game, or even just a regular sandbox game where anything goes. My friends and I have been playing this game for years and we love it so much. It's great for kids to play because some of the games are educational and some are not. There are a lot of things to do on this game, and it's worth the money!

Please make a map creator way better than the one in game just because it's not as organized. There should be more detail to every single item. Make an option that if you move your mouse over an item it will tell you what that is and how to use it and everything else about the item.

Roblox had an accident with the site in early July 2011 when it was down for several days causing some players to be unable to log onto their accounts and play. The site's status was displayed as up by Roblox staff after a few days but only some experienced players were able to log on within those few days.
