I have attempted to make a list of all the free Roblox code sites and codes I know of. You should be wary when using these codes, as some do not work anymore or may lead to viruses/malware on your computer. I've also made a list of which sites are safe and which sites are unsafe for you to visit. Please be cautious and do not enter any codes you have found in a comment on Youtube, on Reddit, or anywhere else. Always make sure to read the comments of the videos and follow all instructions before using them.

This tool is very easy to use, and you will always have a ton of fun with it. In my opinion, this is one of the most efficient ways in order to get free robux on roblox. It has been tested by several players already, so it seems to be reliable enough.

The "ROBLOX" logo was created by the company's CEO and founder David Baszucki in 1996, when he was originally designing the website's layout before it was launched. He designed the logo to look similar to the word "engine" on a train, as he envisioned ROBLOX to be a playground powered by an online community where users could create virtual worlds. The first iteration of the logo consisted of an orange square that displayed three green horizontal stripes, each separated by a white space. The stripes were arranged in a way that would yield nine pixels when all three were equally spaced. A basic version of the logo was used until 2003.

On May 12, 2016, ROBLOX announced that its first paid product (ROBLOX Credit) would be released on the 7th of June 2016. Later on July 4, 2016, ROBLOX Credit will be released to a limited number of people and then will eventually be released to everyone with their first payment plan in July 2017. On September 15 it was available for all users to purchase via Paypal or Credits. On May 17, 2017, ROBLOX announced that starting on May 26, users who had never purchased or used ROBLOX Credit will have to purchase it using real money.
