The product has received various negative comments on their forums due to the fact that they had broken features, it is unclear why they released the product before fixing all the bugs.

Another really cool method that can be used by all of the players is by using the official roblox app. The steps are very simple and you can register your account easily by just providing your username and password. Once you have done that, then you can begin using the free robux generator that is provided in the application itself.

ROBLOX released a new website design on September 17, 2018 (9:00 AM). This update changed many things to help revamp the community and also for users. It includes a revamped chat, which is shown on the right. This update added many new features such as "Continuous Games" and "Better Chat". It also added badges for various events.

On February 4, 2016, Roblox announced that all "Spam" accounts would have their control access taken away for 24 hours. This was done following a warning sent out on January 20th.[69] Spam accounts created prior to August 10th 2016, will receive a permanent ban on February 5th.

Roblox has been criticized for letting users access mature content, such as nudity, on the platform. In March 2018, it was reported that there were multiple nude characters on Roblox. The game had a character that was wearing only underwear. The character also had private parts that could be exposed to other players. This resulted in a large number of complaints being submitted to the company and they responded by making the character wear pants. However, the character then became fully covered and was unable to be exposed in this manner anymore.
