Before you can start getting your free robux for roblox, you will have to make sure that the application itself is safe to use. As I have mentioned before, there are a lot of different generators available and some of them are not safe to use so you have to be careful in choosing the right generator for your device.

ROBLOX has official clients for Windows, macOS, Linux, iOS, Android, Xbox One, and PlayStation 4. ROBLOX also has a game engine called "Build" which can be downloaded for free to those wishing to develop games for their website. Although not officially supported by ROBLOX themselves, the client source code is also available on GitHub. As such, there are unofficial ports of ROBLOX to other platforms not supported officially by ROBLOX such as Xbox 360, Raspberry Pi and Tizen. An early attempt at an iPhone port in 2010 was unsuccessful due to concerns over the stability of the platform and a lack of toolchain support.

In March 2017, ROBLOX added a new feature that allows builders to use an already existing image of a face as their character's face. The face can be uploaded from the user's computer or through an online camera. This feature has been disabled for the 2017 Halloween game The Mad Murderer.[38]

On October 10, 2018, Roblox announced that they will be selling 49% of their ownership stake to Tencent Holdings for \$100 million. The deal is subject to approval by the Roblox board of directors and Tencent before it goes into effect. The transaction will be funded from Roblox's 'new business' funds, which aim to expand the company's offerings including VR, augmented reality and mobile.

On September 30th, 2018, ROBLOX released a "make your own toy" simulator called "Work at a Pizza Place". It proved very controversial as many users perceived it to be a lazy game and was rushed out without being finished. There were also many players complaining about how they could make money by selling pizza hats and shirts. However, this was only intended for people who would want to work at ROBLOX pizza.
