Free games are not limited to offering premium features; however, most free games which offer their own XP system for player progression don't offer it via premium features. Therefore, non-Premium free games will usually include the default XP system as an option instead of offering another one.

ROBLOX is a great game, and has lots of potential, but it's not being used as a serious game developer wants it to be. You can't break out of the virtual world without spending money on the Robux currency. It's like a video game and to continue playing you need Robux, but if there is no value in the game then they don't want you to play at all.

I love roblox because it is filled with amazing games. Also, I think it needs more easy to download games and more new games. There are lots of great players that are making great games but they feel unappreciated because if there is a new update some other player comes onto their game and steals their ideas so that doesn't make them happy. I also think that there should be easier ways for players to get to private chat or opt out of chat but not everyone would like being in a public chat room which would only make them mad. I like being in a private chat room with my friends because no one else can get into the room and report us for saying bad words.

On December 5, 2018, ROBLOX released their first Steam game "ROBLOX On Ice", developed by user SamoDaCar. In early 2017, ROBLOX released a YouTube channel. The channel features animated shorts of the game "Abobo's Big Adventure", a reboot of the popular war series "Abobo's Big Adventure". In July 2017, ROBLOX released its second YouTube channel called Roblox Top Model. It came with a new show and it was announced that they were coming out with more shows in the future. This channel features many shows, including Talent Time, Celebrity Catwalk, Dancing With The Star, The Edge Of Glory and more.

I really liked playing my own games because it was fun to design a new world for my friends and myself. In my game I could make up anything I wanted. I could add trains, people, animals and pretty much anything else you can think of. I also liked making my own avatar because it gives me a lot of choices in making the way they look. Another thing I was really interested in was Roblox role play which is basically acting like someone else for a little while. You can choose one of your friends or even make up a new person and act like them until you want to stop again. This is good for kids because they get to learn how to act like they're someone else. It's also good for when they have to act in school and it can teach them a lot of things.
