Some parents of children who play the game have said that it is due to inappropriate content and language that their children are spending so much time on the site. Some of these parents reported being harassed by other players on the site when they themselves criticized Roblox. One parent said that far from being a "quality of life" game for his child, it was being used as a distraction to escape from reality. The following comments were made:

The first game to have a massive economy was Weebly Pages where they implemented a currency which included things such as energy, the ability to teleport to different locations, and more. There were about 4 things that were the most expensive at the time: The North Pole Room and Casino, Room of the Dead and Old Africa, and The Technology Lab and City. [119] Weebly Pages later went on to become Pikazo. [120]

Media usage and privacy concerns from various sources (see articles) have prompted user action against the company. ROBLOX is a site that allows its users to create their own 3D worlds by building them with the Roblox Studio software. Users can also import their own model and use it in their game. Users can also upload their game and give it ratings on ROBLOX's website. ROBLOX has also allowed users to create art of other games from other developers on YouTube through ROBLOX's brand of accounts created for this purpose. However, they have been criticized for not allowing users to upload custom art they have created into their games, which is done by making custom "Avatar" models for users which can then be used in-game.

Rated 5 out of 5 by Anonymous from The best game ever! ROBLOX is one of the greatest games I've ever played. It lets you make your own adventures with your friends or in single player mode! This game I'd give a 10/10 because you can build anything you want, and there are still many things to do. For example, if you're tired of building things, there are games to play on Roblox. You can be a police officer, a fire fighter, or even an architect! Roblox is a truly awesome game that needs to be experienced!

ROBLOX has been criticized for being a scam. This is because many users have claimed that they are scammed by ROBLOX. One of these scams was when a user named "Brianna" was falsely accused of selling copied items, which caused the price of an item to go from \$10-\$20 to \$50-\$100 overnight.[50]
