On September 22nd, 2012, a head developer from the website Games Done Quick sent a cease and desist letter to Roblox because they were using code that he had created without permission. This is one of the few situations where ROBLOX has deleted all of its assets to avoid legal issues.

The next time you log into your Roblox account, it is recommended that you take a moment and really think about what information and/or games can be accessed by the hacker. If this is not enough, start using anti-virus software to look over your computer for any unauthorized programs installed on the system. Never share personal information with any website that requires it, especially when it contains your email address.

There is no better way to get free robux on roblox than by using this generator. This is probably the simplest and most efficient way that anyone can use in order to get free robux on roblox instantly. The best thing about this method is that it has already been tested by other players before, and they have reported working results.

Users can report a game if they feel like it does not follow the rules. Either the game will be deleted or the owner will be warned, but most of the time the game is deleted. On January 5, 2017, a legacy avatar called Trollface became unusable because of DMCA claims from its artist. As such, ROBLOX disabled all avatars that use his artwork. It was later re-enabled after copyright claims were retracted.[39]

Finally, you can also find free Robux by selling your extra unused items that you might have from old games or if you're a big fan of glitching, then you could sell your extra glitches for free Robux. There are also sites that offer ways to get free ROBUX this way!
