Robux (also known as Roblox) is the in-game currency of Minecraft:Roblox. It can be bought with real money, but in order to earn it, you have to do missions or purchase it with real money, which means that you are paying them for a fixed amount of time. Unfortunately for some players, they will be astounded by the fact that buying robux for roblox actually results in getting less than what you would get if you had done all these activities on your own. The amount of robux that you will get depends on how much stuff you buy and how many times you do a test.

In 2012, ROBLOX changed their logo. In January 2015, ROBLOX released a new website design with a few design quirks (like having your account avatar next to the gamertag that bought it in place of the previously used avatar) and having the games listed below on the homepage after some time for initial release followed by a notification saying they are opening more in 2015. On March 31, 2015, ROBLOX officially confirmed that they are making a game in virtual reality and that they will make a demo by the end of summer.

I like roblox but it is still not better than minecraft in my opinion because minecraft have so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love roblox but I still think that it could be way better, so here is some of my ideas 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing what I don't like about roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier

No microtransactions. Roblox does not have any in-game purchases or microtransactions, meaning that you can play as much as you want without worrying about being charged each time. This works very well as the developers have a different way to monetize their system - which we'll discuss further on into this review.

On December 18th, 2019, ROBLOX announced their controversial decision on how they plan on handling moderators in the future.[106] This caused controversy within the community as many moderators believed they wouldn't be able to perform their job correctly due to ROBLOX's change of plan.
