Hacking Roblox is a form of hacking. Hacking in general, when not applied maliciously, is the process of enabling access to computer systems that would otherwise be unavailable or difficult to access.

This game has many bugs such as glitching which can happen at any time including in games. There is no way to report this glitch due to the fact that the button isn't there and you can only report it from the website. This is extremely annoying because you need to refresh the page and play all over again, but this usually happens when you are about to win.

One of ROBLOX's main rivals is Tencent, a Chinese company. The two companies even share employees and developers, including the current admin. ROBLOX as well as Tencent are often compared to each other due to their similarities.

On May 8, 2015, Builder's Club was released for mobile devices. Users can build games on their mobile device and upload them to the catalog. Users can now play on their devices and make money by selling their games. This was the first time a platform has allowed mobile users to make money from their creations. Also in this year, ROBLOX announced that they were giving all accounts $1 million of Robux for free (for a limited time).

On March 22nd 2018 a father claimed that his young son was being harassed by online predators on roblox. His son was given what he believed to be an authentic phone number for support from roblox but it was actually a phone number for an adult service in California called "Spunky".
