On June 21st 2017, ROBLOX announced that all spambots will be blocked. [70] Criticism: Roblox is frequently criticized for having a lot of children on the site. This criticism has not been limited to adults, but has also been aimed at the company as well. There have been several stories of people being scammed by users who receive no response when attempting to use a built-in feature that allows the user to block other users from messaging them.[71]

No microtransactions. Roblox does not have any in-game purchases or microtransactions, meaning that you can play as much as you want without worrying about being charged each time. This works very well as the developers have a different way to monetize their system - which we'll discuss further on into this review.

This method is similar to the last one but there are a lot of difference between this method and the last one too! The difference between this method and the last one is that this it will require a lot of time to complete and there are also some missions involved in this as well. In order to get free robux by doing the missions, you will have to complete the missions that are listed under tasks of your user account. You have to complete a lot of these tasks in order for them to complete and for this reason, it will take a very long time to complete. However, once you do all of the tasks that are assigned, you will get a lot of free robux and you can use them in order to buy some cool items or invest in weapons for your character.

As of March 2017, Roblox has over 64 million users with 30 million monthly active users. In January 2017 it was announced that females now comprise more than 36% of its demographic, up from just 26% in 2015. Roblox has also had a steady increase in overall player count since 2015. In February 2017, Roblox launched a redesign of its user interface, designed to make it easier for new players to learn about the game and play it. Over 200,000 people signed up during the first week of the rebrand.

There are some games that can give you more Robux randomly. But the chances of a good game giving you much more than what you're supposed to receive are very slim because the online game developers save these gifts for popular games.
