On July 31st, 2019 ROBLOX released another version update for Studio 2.1 (known as "Studio 2.1.1") which fixed a lot of major glitches and bugs that were present in previous versions of Studio and also included a better way for players to customize their own physics settings.

Roblox had an accident with the site in early July 2011 when it was down for several days causing some players to be unable to log onto their accounts and play. The site's status was displayed as up by Roblox staff after a few days but only some experienced players were able to log on within those few days.

This is mostly used for buying virtual items such as weapons or accessories on Roblox's marketplace and selling them at a profit, which is rather common as people often sell their in-game belongings/items for real money .

RobLEX is the currency used on many games running in the ROBLOX Universe, such as RarestMonsters and BLOXelation. It was first introduced in 2017 for the game Shooting Challenge 2. In April 2018, ROBLOX introduced a feature referred to as "LocalScripts." LocalScripts enable users to locally execute C# code in-game. They can be used to access the hardware of a device running the game, or manipulate specific parts of the game. For example, by using LocalScripts, developers can create weapons that change their firing rate depending on how fast you pull the trigger.
