So far I haven't really enjoyed ROBLOX because of how serious it is. The game itself just isn't fun and is way too addicting for me. I know some people enjoy it because of how addicting it is but it just isn't fun for me. Why is that?

On May 31st, 2019, ROBLOX released an update to their engine which brought along a new physics engine known as "Bloxlet". This engine can be used in nearly all of ROBLOX games and will allow players to play in one of the three different modes: Classic ROBLOX mode which is using the older version of the physics engine from ROBLOX that was introduced on June 12th 2018, Bloxlet mode which uses the new physics system introduced on December 18th 2019, and Customized mode which allows users to customize their own physics setting. It is unknown whether or not this feature will be maintained through future updates.

Roblox has been used by various organizations for training a variety of topics. The United States Army uses Roblox to train teenage soldiers that have joined their Cyber Patriot Program. The team's mission is to create, maintain, and operate constructive team-based activities online via the game "Roblox". Outside of that, Roblox has been used in courses for mathematics, English, science, and history.

I just wish we could have stuff like spoons on roblox and we could make furniture like tables and chairs or a cabinet and some chairs for our avatar. Also I want to be able to make my own game make it like Roblox survival! Please please please update roblox so that we can have stuff like spoons and a table and chairs for our avatar thank you. When there is an update that takes away all the content from one of the games I played, it's sad because I enjoyed it... And other people enjoyed it too.

At the end of a game, players can view and edit their stats by using the "My Stats" link. This section of Roblox allows players to view data such as number of games played, experience points, badges earned and a few others. Players can only see this section if they have played at least one game online that day.
