ROBLOX has also been criticised for lacking any kind of quality assurance for its games. There have been many issues with the quality of some games and many users have complained that their game descriptions are not accurate. The site is also frustratingly inconsistent in the manner it deals with things like this, often banning users who complain about bugs and glitches within their games but not actually banning anyone who commits an illegal act, such as copying someone else's game and selling it without permission.

The game is not free of problems and some of them are still not being fixed. The profit issues that confront the company have been allocated to one person, Travis, who is given a large portion of the income. This is unfair as most players have less than \$5 in their account.

In October 2016, many games were allegedly hacked by a group calling themselves "The Bureau". The group claimed to be responsible for hacks on other popular websites such as YouTube, PSN, Microsoft's Xbox Live and Blizzard Entertainment's Battle.net. The group also claimed to have over 2,000,000 players' personal information.

Rated 4 out of 5 by Anonymous from fun and addicting! I like roblox because it lets you use your imagination for building things and it lets you play games made by other kids. Rated 3 out of 5 by Anonymous from Great game! Good game for all ages, but can take up a lot of memory space!

Even though ROBLOX replaced many of its assets with assets from Awaited Studios for being sued by Dr. J for copyright infringement, ROBLOX did not do this to avoid paying royalties for all of the money that was earned by users who were using their assets in other games.
