On August 21st 2018, ROBLOX removed the ability to sell hats and shirts on their site. This came after a report that showed a lot of users were scamming each other out of money. The system was redesigned and the hats cannot be re-sold.[45][46]

However, there is no way to directly transfer items or coins between accounts unless both parties are friends with each other on ROBLOX; however they can work around this by transferring the item to a shared place and trading the item from that point.

The Free Robux promo codes for ROBLOX are very simple to use and you will get everything done in just a matter of minutes. You will also be able to make a lot of profit using it without spending much time on it. The codes will also only display a series of random strings of characters that have been created by the developer or designer. After they have been entered into the account, you must wait for several hours before they are completely added onto your accounts and made available for use in any games that you want to play on this site.

This is one of the most efficient and reliable sources for free robux in roblox. It has been tested many times by other players, and they have been quite satisfied with how fast and effective this cheat is.

On July 3rd, 2018, ROBLOX announced that they were no longer allowing people to make custom models for their games. Instead, they would be allowing users to build blocky models that could not be edited at all. They stated that this would prevent the creation of custom models and save money by preventing expensive data transfers.[22] The change was made in order to clean up the game because custom models complicates the "Roblox experience" in some cases.
