This is one of the best ways to get free robux for roblox without having to spend real money and it will work perfectly fine without any problems at all. However, if you are not interested in getting free robux for roblox and you are looking for some different features, then this application will help you out with everything that you need so it is up to you to decide whether or not you should download it. It doesn't show any serious problems after some time has passed by so there isn't a reason why players shouldn't use these features.

5. Roblox should have a choice where we can only friend other users based on gender and age. 6. There are too many DLC's that do not allow you to play the game fully without buying them. 7. There needs to be an authority on the game just like there is one for Steam that will give out reports about inappropriate content as well as any other updates and problems that happen within the game such as glitches and server problems.

Media usage and privacy concerns from various sources (see articles) have prompted user action against the company. ROBLOX is a site that allows its users to create their own 3D worlds by building them with the Roblox Studio software. Users can also import their own model and use it in their game. Users can also upload their game and give it ratings on ROBLOX's website. ROBLOX has also allowed users to create art of other games from other developers on YouTube through ROBLOX's brand of accounts created for this purpose. However, they have been criticized for not allowing users to upload custom art they have created into their games, which is done by making custom "Avatar" models for users which can then be used in-game.

Spamming: Roblox has been criticized for its extreme amount of spam. Some examples include the "Free Robux" scam, where people are tricked into giving their username and password to a third party so that they can steal their Robux, and the "You Have Been Tricked" scam, which consists of the offender saying something along the lines of "DON'T TRUST. HE IS TROLLING ME."

The game is not free of problems and some of them are still not being fixed. The profit issues that confront the company have been allocated to one person, Travis, who is given a large portion of the income. This is unfair as most players have less than \$5 in their account.
