January 11th 2018 saw the release of Alpha 18, which introduced in-depth changes to the structure of the game's map generation system and an increase in complexity for combat and survival. This release also saw Facepunch studios change their focus from free-to-play to a closed beta group on Steam, as well as a slight reduction in difficulty.",

Another really popular mod has to be Minecraft SMP4 Mod which makes all mobs more dangerous than they were before. This makes the game more challenging and a lot more fun as well as a way to add some different life to the game. The mobs will have more health, attack, damage, and range so that it is actually possible for them to take you down. This mod is great if you want an even harder experience than when you are playing by yourself. More Info Download: Minecraft SMP4 Mod OpenBlocks Intelligent In-Game Console",

In the game of Minecraft there are different types of blocks such as Stone, Wood, Iron and many more. All of these blocks are available in every version but it is up to you to unlock more of them within each area you play on (this is known as saving worlds). Every version also includes a number of mobs. This is the name given to all of the characters you can see in game. Some of the mobs will be friendly while others will just want to hurt you (especially if they are hostile). But there are some friendly ones that will help you out!",
