The company's Terms of Service forbids developers from using Roblox's data for marketing purposes including allowing developers to sell their own products on the platform. It also prohibits them from using Roblox's data for behavioral advertising such as ad marketing based on the age groups or ethnicity of an individual user. The report by CNBC states that this can be seen in their products where they use this data to serve ads on other sites that are owned by the company.

Test out games and earn free robux for completing various tasks. The more difficult the challenge is, the more rewards you will get in return. Take time to play video games and collect as much free robux for completing simple tasks.

Open an existing account, or create a new one. Sign in with your username and password. Choose the "Cash" button in the top right corner of the game screen. Go to "Catalog", then choose "Purchase." Then, search for "Free Builder's Club" and choose that item with your Free Roblox Gift Card.

ROBLOX has also been criticised for not putting up a good enough amount of effort to make ROBLOX itself safer for players. The site is not very well secured and has been known to have exploits since 2010, like one in the "Spectator Mode" which gives users complete control over other users' games with no checks or balances. It also allows users to upload executable files onto ROBLOX servers without any notification and allows them full access to other user's games and accounts.

ROBLOX is among the few websites that provide analytics data on their members. This data is collected from the number of visitors, members and games played. Many large groups have been created to publicize the statistics of ROBLOX. One such group is "We Hate Fake Players", which regularly posts ROBLOX statistics on its profile.[43]
