Roblox is one of the most popular online games in existence. In my opinion, this game is extremely fun and great for all ages. Although I have been playing roblox for only about a month now, I still love the game so far. Roblox has a variety of different games in which you can play and I enjoy all of them. Another thing I have learned about roblox is that the company behind it is very kind towards their players. Although there are many things to be aware of when playing roblox, the game has many differences from other games and these things make it better than most.

For me, I think that one of the most important skills that I have developed is patience. In Roblox I am required to be patient with my friends, because most likely they will not be online when I want to play with them. Posers are also another big part of the game where people pretend that they are someone else but if you tell them they can't do it then they will stop being so fake and start being their true selves again.

On October 4th, 2018, Roblox introduced a new game mode called "Elevate", which had players build futuristic skyscrapers in the sky. Players were able to earn money by selling their custom skyscrapers for Robux. It was soon discovered that many of these buildings were copies from the game "Survival Island", prompting ROBLOX to ban users who had copied these buildings.[79]

On March 22, 2018, it was announced that it's been awarded a Guinness World Record for being the most popular game creation platform. On June 25, 2018, Roblox released a statement concerning maximum levels of moderation following controversy surrounding "Miner's Haven" as well as other role-playing games.

ROBLOX is a great game, and has lots of potential, but it's not being used as a serious game developer wants it to be. You can't break out of the virtual world without spending money on the Robux currency. It's like a video game and to continue playing you need Robux, but if there is no value in the game then they don't want you to play at all.
