In 2011 even mid-tier MMOs released subscription-based multiplayer games.[57] An example of this is Star Wars: The Old Republic, which charges \$15 per month or \$150 per year for access to its game content. World of Warcraft offers paid subscriptions through its Battle.net platform and has done since 2007.

Roblox has been compared to "Minecraft" due to its similar graphics, game building etc. One of the most notable comparisons is the "Roblox Topia" video which can be found on YouTube. This is an instructional video on how to make popular "Minecraft" related structures in ROBLOX.

ROBLOX has partnered with Twitch since November 2015 to promote each other.[46][47] ROBLOX allows Twitch users with a verified channel to have an emote based on their Twitch avatar that can be used in the game and vice versa. In August 2016, ROBLOX announced Twitch Prime as one of the benefits that members would receive for being a subscriber. It was first available as a free trial. On January 30, 2017, ROBLOX added a special gift of virtual currency to Twitch Prime members every month. This virtual currency is obtainable by watching adverts on Twitch and logging in with an account that has been linked to ROBLOX.[48] On February 5, 2017, ROBLOX announced that they would be removing the link between Webkinz ID and Twitch Prime.[49]

Rated 4 out of 5 by Anonymous from Pretty Fun This game is fun and very addicting but would probably be more fun if you had a personal computer or notebook. And sometimes there are annoying adds but overall its a great game if you want to have some fun with your friends online.

Community: Roblox has an active community of players. A group of these players have joined together to create a group called ROBLOX Users as Leaders, or RUL. This group has made several YouTube videos on what they expect the future of ROBLOX to be. For example, there was a video on RO-NT (Roblox On New Technology) which was released in 2013. The main purpose of this is to improve ROBLOX so that it can match the technological advances that have been made since 2012, including 3D technology and mobile platforms, such as Android and iOS.
