According to a report by SuperData Research, Roblox had an estimated 5.7 million monthly active users in 2018. The report states that their statistics were based on the call records of around 1 million Android users who are under 13 years old. In their report, the company estimated that 6% of their users were under 12 years old. The reported monthly active users also included those who played Roblox on a daily basis. Their estimate was 14% and they based this on the number of days that players spend playing Roblox on any day. In addition, the report also stated that 32% of their players were in North America and 29% were in Europe.

Roblox has been criticized by some users for their use of Facebook data. In April 2018, a report by CNBC claimed that they were able to track user's Roblox activities on Facebook using this data. This included the number of times that they left comments and how much time they spent in a game.

ROBLOX collects account information from users using its Trusted ID system. The process is designed to make it easier for ROBLOX to provide players with a personalized experience and more opportunities to earn credits online. The program does treat user privacy concerns seriously, however, and requires notice before any account information becomes public. Players can adjust their personal settings on their profile page on the website.

Free Robux Codes Reddit (Most Visited)Reddit is extremely spammy and not recommended for obtaining free Robux codes. I've recently seen many people get swindled into downloading various viruses/spyware/malware from these comments and they're not safe. In order to stay safe, use the Free Robux Code list above or simply ask permission from the owner of the site before using their codes.
