Floating Balls! I have noticed that when you are at a group world and getting on people's chat heads they should be able to fly around like on normal. We need this because there are so many times where such a little bug would make these people mad if they were floating anywhere near them because they would not know what to say. Even though there are thousands of people in the group there should be more room for them to float. I think that there should be more than one chat head. I have seen people report this bug but it has not been fixed and I really want to see it fixed.

In order to get free robux on roblox, then I would highly recommend using this hack tool. This method does not require any complicated process or setup because you will have everything that you need right there and ready for your use whenever you would like it the most.

There are also other options to get free robux. Some players have found ways to get free robux without having an account and without downloading ROBLOX Studio (which is the free version of ROBLOX) by using a different method or by using a fake card:

A user's membership is displayed as a number of "blocks" that they have in their account. This number can be increased at any time by purchasing a builders club membership which also unlocks other features such as custom backgrounds, avatars and other features like chat rooms and new games. The first block costs 99 cents, while additional blocks begin at \$2.99 for 12 blocks. Unlike Xbox Live Gold and PSN, the number of blocks does not reset after you have purchased them, but keeps track of all the purchases you made up until you buy more blocks.
